

A free Internet connection is available for your apartment – subscribe to it now!

We have good news for you! Based on an agreement between Kokkolan Vuokra Asunnot and Elisa, your apartment has a 25 Mbit/s broadband connection available. **You can get the broadband for your use by subscribing to it free of charge.**

You can also subscribe to a broadband connection with a faster speed or the Elisa Viihde entertainment service at an affordable price. A faster connection may be needed if the Internet connection is used with multiple devices or, for instance, for gaming. Elisa Viihde contains a fast broadband connection, a digital receiver with recording functionality, pay-TV channels available for subscription and a lot more. You can see the prices and additional information at elisa.fi/kova or when subscribing.

Modem

You will need a modem for the broadband connection, which you can acquire at the same time when you subscribe. You can see the price when subscribing. Note: At the addresses Runeberginkatu 60 and Tykkitie 1, the connection also works without a modem through the apartments' data sockets. A modem is only needed for wireless connection.

Here's how to subscribe

- Visit the elisa.fi/laajakaista website, fill in the address fields and select the broadband service with the 25 Mbit/s basic speed (for €0 per month), or an affordable faster connection or Elisa Viihde.
- At the Elisa shop at Tehtaankatu 3, Kokkola; take this letter and a photo ID with you.
- Call our sales service's toll-free number **0800 98323** (Mon–Fri 8 a.m. – 8 p.m., Sat 9 a.m. – 4:30 p.m.).
